

Ode to Eileen

Don't be mean to Eileen,
She doesn't mean to break things.

We'll really miss her when she goes
But as everyone here knows
She's done her time and helped us all,
With advice and problems, big and small.

She's helped us out with clinical skills,
And nursed all sorts of different ills.
Eileen – so many you have inspired -
What shall we do now that you have retired?
