

Save St Helier

BSBV? This doesn't sound any better to me!
'Better Services Better Value' – does this really sound better to you:

St Helier downgraded, with no A & E
Or maternity unit, don't you see?
This is dangerous and a bad idea –
We need St Helier to remain here.

Paul Burstow, MP for Sutton and Cheam
Describes the situation like a bad dream –

*They haven't listened or understood,
They're not doing the area any good.
The battlelines are drawn,
The process is flawed
What local people want
Is being ignored.*

MP for Carshalton and Wallington, Tom Brake,
Knows downgrading St Helier would be a huge mistake.

*BSBV is set on disruptive, risky enterprise
When St Helier's the best – that's no surprise:
It's the best performing hospital in the South West of the capital –
Don't downgrade it – your thinking should be lateral:
Look for other solutions with less risk involved –
We won't stop till this situation's solved.*

So everyone – lobby your MPs,
Ask them to influence the CCGs.
Sign the petition¹ – add your name,
Get in touch and join the campaign.
